Did You Know?

Nordent[®] sharpens nearly all brands and all patterns of dental hand instruments.

Contact us for more info today!

Discount!

You can trade in all Xdura[®] or Relyant[®] Scalers and Currettes to receive a 20% discount off replacements**

Don't Forget!

Instruments must be sterilized, and sent in sterilization bags for sharpening.

*Any instruments that have been re-tipped are not eligible for free sharpening services.

**All instrument trades must be within the same scaler family of Xdura or Relyant.

***Shipping charges are \$15.00 each way within the continuous US. Inbound shipping charges only applied if using our UPS label. For customers not using our UPS label, we highly recommend sending via any service that provides tracking information.

****Mandatory field/section. Please complete fully to avoid delays.

GAIN BACK THAT NEW SHARP FEELING!

Form Instructions

- 1. Contact info:** Please list your office name, address and phone number along with a contact person in case we have any questions about your order.
Order info: Please list the quantity of instruments being sent in. If the handle says Relyant or Xdura, they are sharpened for free. Any other Nordent line and any other manufacturer is \$7.73/each, those would be listed in the “others” spot on the front of the form. If you are sending in anything other than scalers/curettes, list them on the back of the order form in corresponding box.
- 3. Instruments beyond repair:** Please check what you would like us to do with your instruments that cannot be sharpened. Trade them in for a discount on new Relyant or Xdura, contact your office, or return with your order.
- 4. Payment info:** if you are sending in ALL free sharpening (XDURA/Relyant) you are only responsible for the shipping charges. If you use our provided shipping label, list your credit card for the \$30 round-trip shipping. If you are sending in anything else that is chargeable sharpening (non XDURA/Relyant), write your dental dealer’s company name and all charges (sharpening plus the shipping) will then be billed through them.
- 5. Important:** Before packaging your instruments for shipment to Nordent, please make sure ALL instruments have been sterilized. All instruments sent must arrive in sterilization bags to be sharpened.
