

# High Definition Mirror Head

True Reflection, True Precision

## Luminous True Colors

100% level of color reflection with zero image distortion, providing accurate and clear visuals during procedures.

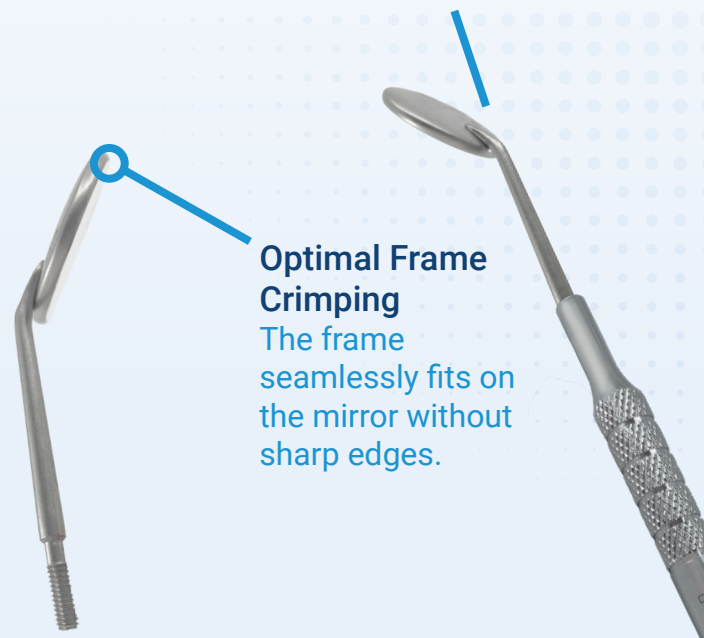

No double image – Image reflected directly on the glass

## Streamlined Mirror Frame

Flat and ergonomic soldering making it more comfortable for the patient during retraction.

**Optimal Frame Crimping**  
The frame seamlessly fits on the mirror without sharp edges.

## HD Mirror Head #5 Cone Socket

Compatible with any Nordent Cone Socket mirror handles.
