

ATRAUMATIC FORCEPS

PREMIUM-CRAFTED FORCEPS DESIGNED FOR PRECISE EXTRACTIONS

Manufactured in Germany using high-grade surgical stainless steel for ideal performance.

Lightweight handles feature chamfered grip holes aligned for **comfortable finger placement** while allowing for controlled use.

The smooth satin finish minimizes glare, and all edges are smoothed and beveled to support both **patient comfort** and **clinician handling**.

Choose from patterns suited to specific case requirements

Classic

Traditional geometry with a finely serrated beak.

Deep Gripping

Features a notched beak tip for deeper access into the gingival pocket.

Tapered

Ultra-thin beak designed for easier insertion and reduced soft tissue displacement.

Beak geometries are finely serrated to **support secure engagement with the crown or root**.

Classic Pattern
